

# compost tea fertilizer recipe

## Ingredients:

- Compost
- Water

### Notes:

- **Nutrient-Rich:** Compost tea contains a diverse array of nutrients and beneficial microorganisms, enhancing soil health and plant growth.
- **Versatile Application:** Suitable for all plant types

### Usage Recommendations:

Use compost tea as a nutrient-rich liquid fertilizer to water your plants. Apply compost tea as a foliar spray or directly at the base of the plants. Use it regularly during the growing season to promote healthy plant growth and soil fertility.

## Instructions:

1. Place a shovel full of compost in a bucket or container.
2. Fill the container with water and stir the mixture.
3. Let the compost steep in the water for 2-3 days, stirring occasionally.
4. Strain the liquid and use it to water your plants, either as a foliar spray or directly at the base of the plants.

*Grow, flourish, and bloom!*
